About ipPerformance Group

ipPerformance Group, Inc. (www.ipperform.com) is the leading intellectual property advisory and benchmarking firm. Drawing on the knowledge of over 550 intellectual property management benchmarks of the Global 1000 companies, we help our corporate clients solve common and complex intellectual property business problems and measurably enhance their ability to build value, manage risk, and improve performance in an intellectual property–driven world.

Our **technology solutions services** help clients improve their productivity and decision making with management and analysis software. Our **strategy services** help clients assess their intellectual property management process, performance metrics, and staffing (roles and responsibilities) against peers and best practices to effect a strategically business-aligned program. Our **research services** conduct extensive benchmarks focused on intellectual property operations best practices. This research has enabled corporate leaders throughout the world to measure performance and identify improvement opportunities.
